

# How long can I keep my recordings?

Last Modified on 11/27/2024 3:43 pm EST

You can keep them as long as you want. Just remember, the recording space is limited, so you may need to delete some recorded programs from time to time in order to make room for new ones. Please note: If your DVR needs replaced, the recordings will be lost as they are stored on your DVR's hard drive.
