

# I would like to change the amount of time my phone rings before it goes to voicemail. How do I do this?

Last Modified on 11/26/2024 12:02 pm EST

In order to change the amount of time your phone rings before it goes to voicemail, you can log into the [SECV user portal](#) and under call handling change the no answer send to voicemail, edit the number of seconds to the time you would prefer.
