

What is the difference between a Dual-Tuner DVR and a Whole Home 6-Tuner DVR?

Last Modified on 03/11/2017 12:36 pm EST

A Dual-Tuner DVR allows you to record one show while watching another, or record two shows at once to a single DVR hard drive.

A Whole Home 6-Tuner DVR system allows you to record up to 6 shows at once as well as access and manage all of your recorded shows from any media player in your home, regardless of where a recording was originally scheduled.
