

What kind of modem do you recommend?

Last Modified on 01/26/2023 4:27 pm EST

Customers may choose to purchase or rent a modem from SECV or from another retailer. For the best possible Internet experience, we recommend a DOCSIS 3.1 modem with a minimum of 24x8 channel bonding or higher. If you have any questions, please contact a Customer Service Representative at 877.955.SEKV or [chat us live](#) prior to purchasing a modem.
