

# Is a DTA required to view SECV's channel lineups on TVs with built-in QAM tuners?

Last Modified on 11/27/2024 3:57 pm EST

Yes, as of February 24, 2015, you must have either a Digital Transport Adaptor (DTA), a converter, TiVo, TiVo Stream, or CableCARD® connected to each of the QAM Tuner TVs in your home in order to continue to view programming.
