

Is a DTA required to view SECV's channel lineups on TVs with built-in QAM tuners?

Last Modified on 06/24/2021 4:44 pm EDT

Yes, as of February 24, 2015, you must have either a Digital Transport Adaptor (DTA), a converter, TiVo, or CableCARD® connected to each of the QAM Tuner TVs in your home in order to continue to view programming.
