

# How do I record a future-scheduled program on TV?

Last Modified on 06/21/2021 4:48 pm EDT

There are two options to record a future-scheduled program on TV.

1. Press the **GUIDE** button on your remote control to locate the program you wish to record. Scroll to the program so that it is highlighted and press the **REC** button. A red dot will appear next to the name of the program which confirms it is scheduled to record at that time.
  2. Press the **GUIDE** button on your remote control to locate the program you wish to record. Scroll to the program so that it is highlighted, press the **INFO** button and a dialogue box will appear. Scroll to the red dot and press **OK**. Here you will have the option to start recording the program and also view/modify the recording settings.
