

What are TiVo WishLists?

Last Modified on 11/26/2024 3:30 pm EST

A WishList search finds the shows that match your search criteria on any channel you receive and keeps on searching for as long as you keep the WishList search. If you choose to auto-record matches to your WishList search, you'll find any recorded matches in your MyShows list.

You can search for something specific by creating a WishList search with multiple criteria: for instance, you might create a WishList search for actor George Clooney, category Movies, and sub-category Action. This WishList search would find action movies starring George Clooney.

You can even use WishList searches to find something very specific. For example, the keyword Giants with category Football would find Giants football games, but not baseball games.
