

What are Metacritic Ratings for Movies?

Last Modified on 11/26/2024 3:32 pm EST

Metacritic takes all of the reviews for movies, averages them, and gives you a combined score, so you can see at a glance what critics are saying about a movie. Movies are rated on a scale of 0-100 and color-coded: look for the green scores for the best bets. You'll find Metacritic scores for movies throughout the TiVo experience: What to Watch, Search, My Shows, Guide, and more.
