

# My picture does not fit the screen. How do I correct this?

Last Modified on 06/24/2021 4:43 pm EDT

If you are using a HDMI connection and your picture does not fit the screen, follow these steps:

1. Go to "menu" then "HDMI" setup.
  2. Change the ration to 1080 wide or 720 p wide as indicated by your television
