

# What is HomePass by Plume?

Last Modified on 04/01/2021 1:41 pm EDT

HomePass by Plume offers parental controls and guest access with unparalleled capabilities. HomePass is included with your Plume subscription.

## **Home All Access**

Give full home Wi-Fi access to people you implicitly trust. This will allow their devices to interact with all other connected devices in your home.

## **Limited Guest Access**

Create custom passwords for each guest and then choose which connected devices—like printers, TVs, security cameras or thermostats— they can access to make them feel instantly at home.

## **Internet Only Access**

Devices with Internet only Wi-Fi passwords will only be connected to the Internet and not any of the connected devices in your home.

## **Parental Controls**

Make the internet a safer place by managing the type of content that each device or profile can access. Additionally, approve or block specific websites per device or profile to keep your family safe.

## **Internet Freeze**

Going offline is sometimes a good habit! Schedule an Internet freeze, give a time out to a specific device or person and monitor their levels of Internet usage.
