

What is Plume Sense?

Last Modified on 04/01/2021 1:43 pm EDT

Plume Sense uses Plume Pods and the Wi-Fi connected devices in your home to detect motion. It is a smart motion detection system that also informs you when family members or guests arrive or leave.

Plume Sense Features

- Live View - Take a look inside your network to see where the motion is currently happening
 - Motion Alerts - Receive push notifications when motion takes place, based on when people are at home.
 - Motion History - Review the past 24 hours or 7 days of motion history in your home
 - Personalization - Plume Motion settings can be customized to fit you, your family, and your home, including motion sensitivity, pet mode, Motion Alert frequency, and where motion detection is tracked in your home.
-
