

# How do I enable Plume Sense?

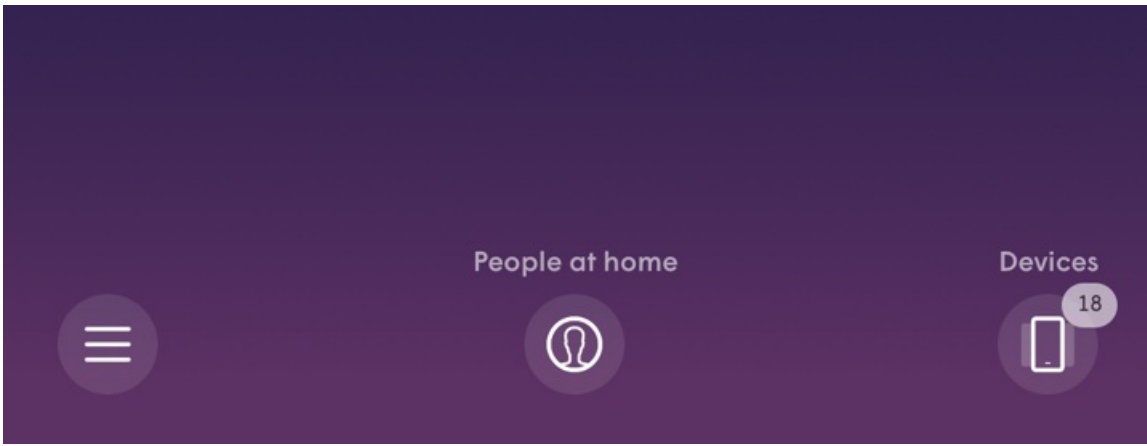

Last Modified on 11/26/2024 4:30 pm EST

## iOS

From the home screen, tap on the Plume Sense icon.

Slide the Wi-Fi Motion detection toggle to the right. It can take up to two minutes for the system to be enabled.

## Android

From the home screen, tap on the menu button and choose Physical Security.

Slide the Motion Detection toggle to the right.

# ← WiFi Motion Detection

Motion detection is on

All motion will be detected for alerts and history.

Motion Sensitivity

High

Pet exceptions enabled

Motion detection devices

14 devices used in motion  
detection

Home

Alerts are turned off while at home
