

I currently subscribe to a bundle of services that includes Internet, TV, and/or Phone. Can I apply the Affordable Connectivity Program to my monthly bill?

Last Modified on 12/30/2021 4:37 pm EST

The Affordable Connectivity Benefit can be applied to the cost of Internet service within a bundle of services. If your bundle also includes a TV service or Phone, you will be responsible for that portion of your bill, as well as any services that are above the monthly discount.
